

UPCYCLING CLOTHING AND TEXTILES

This one-day workshop will explore possibilities to remake, repurpose, and recycle garments and household textiles into a new life. Got a favorite sweater that the moths ate holes in? Restyle it into a hole-free new look. Grandma's tablecloth taking up space in your drawer? Give it a useful life as a stylish frock. That expensive jacket you never wear? Turn it into art-to-wear. Get inspired and motivated to remake, repurpose, and recycle all those rarely or never worn garments and textiles.

MATERIALS LIST

Garment or textile to work on

Sewing scissors (sharp ones!)

Seam Ripper

Threads to match project

Sewing machine (optional)

Tailor's chalk (French wax type if possible)

Measuring tape

Sharp pins and pincushion

Needles (assorted sizes)

Pad of paper or sketch book

Assorted pencils and markers
